

Lightbox Packaging Instructions

This guide will instruct you how to package the lightbox into the black case.

1. Attach the top and bottom pieces of the light box together.

2. Drop the assembly down into the bottom foam inside the case.

3. Slot the Panels upright in the top left corner of the case.

4. Insert the middle foam piece covering the assembly.

5. Place the Door in the middle foam, with the hinges facing towards the front of the case.

6. Place the Intermediate Frames on top of the Door.

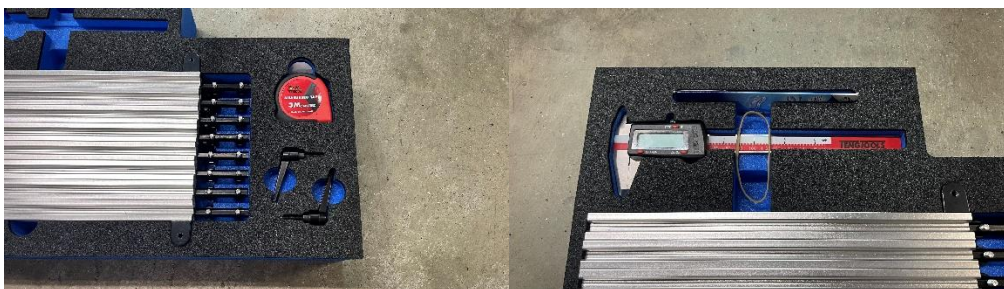

7. Insert the Short Uprights & Long Upright **facing downwards** at the bottom of the Centre foam.

Note: **Tighten the grub screws inwards** so they don't contact the bottom of the foam or each other.

8. Insert the other accessories as shown in the pictures.

9. Drop the Centre foam in the middle of the Intermediate Frames.

10. Drop the Power cords into the empty space in the top right corner.
